

The BOLT STAR® Arctic Edition

Where Innovation Meets Cold Weather

The **BOLT STAR 24" Arctic Edition (024-00419)** is the latest version of the best selling BOLT STAR 24" bolt template tool. The Arctic Edition is 4.5 times more resistant to cold temperatures.

Advantages:

- **Greater Resistance to Freezing Temperatures** when left out overnight in the cold
- **Better Low Temperature Impact Resistance**, measured at 5.6 ft-lb/inch Impact Strength at -40° F (ASTM D256), compared to 1.2 ft-lb/inch for ABS plastic
- **Higher Chemical Resistance** to concrete residues and chemical build-up.

Use It Year Round. Manufactured from polycarbonate materials, the idea behind a cold weather edition is improved "cold weather resistance". But the BOLT STAR 24" Arctic Edition delivers greater overall strength year round from polycarbonate material (UL Listed) that is widely used in outdoor construction, automotive and industrial applications.

Made in the USA. The BOLT STAR Arctic Edition is manufactured in the USA, and demonstrates our commitment to continuously searching for innovative materials that are more sustainable than wood.
