FOR IMMEDIATE RELEASE

APRIL 15, 2022

BOLT STAR® 20" KIT NOW AVAILABLE
FROM BOLT STAR LLC

Sacramento, CA (April 15, 2022) – Bolt Star LLC, manufacturer of the award-winning BOLT STAR® line of bolt templates, announced the release today of its latest solution for the 20-inch pole base.

The solution was made possible by the new red Square Foundation Adaptor (part no. 004-00422) when combined with the useful orange BOLT STAR 24" tool (part no. 024-00403). The Square Foundation Adaptor snaps on to the BOLT STAR 24" and enables the tool to be fastened to the wood H-frame used to hold the 20-inch round forming tube in place during the concrete pour. "Contractors have been asking for a 20" BOLT STAR, but it was not economical for us to produce an entirely new BOLT STAR mold in view of the smaller demand for 20-inch pole bases on construction jobs," says Ken Gregory, President of Bolt Star LLC. "This is a perfect solution when the foundation specification allows for the bolt template assembly to be secured to the top of the H-frame bracing the 20-inch round forming tube."

The H-frame surrounding the 20-inch round forming tube must be raised up and mounted flush with the upper edge or rim of the tube. This enables the BOLT STAR 24" with attached red Square Form Adaptors to be secured to the top of the H-frame using hardware provided in the 20" BOLT STAR Kit. The tool accepts up to 1" diameter anchor bolts, and it can be used to keep anchor bolts centered in the 20-inch forming tube for 7" to 14" bolt circles or 5" to 10" square

More ...

bolt patterns. “A variety of other solutions are presented given that the Square Foundation Adaptor parts are interchangeable with the BOLT STAR 18” and 30” sizes,” adds Gregory.

After the pour, unsnap the red Square Foundation Adaptors and the orange BOLT STAR 24” tool can be re-used for pouring standard 24-inch pole bases. All BOLT STAR® tools and accessories are 100% manufactured in the USA.

BOLT STAR received the prestigious NOVA Award for its contribution to construction efficiency, quality, safety and reducing construction waste. BOLT STAR also has won the Construction & Engineering Award from BUILD Magazine; the Product of the Year Award for Specialty Products from EC&M Magazine; and the Top Products Award from Electrical Products & Solutions Magazine.

About Bolt Star LLC

Bolt Star LLC specializes in the manufacturing, marketing and distribution of innovative tools for the construction industry. Our goal is for every contractor to have tools that increase efficiency, quality and safety, and speed construction. Wherever possible we seek solutions that contribute to a better world by reducing construction waste. These tools are then made available to contractors through a nationwide network of stocking distributors including Graybar, White Cap, Sonepar companies, regional independents and through Amazon business fulfillment centers.
